**Hope, Security and Happiness
A Survey about the Lives of Australians**

Dear Sir or Madam,

This survey asks questions about how you are getting on: your hopes, plans, what's happening to you, and are you getting what you want out of life. We are also interested in your views on where Australia is going, and should be going.

The survey is being conducted by the Australian National University. Its purpose is to provide a snapshot of how Australians are getting by in 2003. By Australians, we are talking about people from all walks of life - including people who often don't get a chance to tell it like it is. We want to hear from you.

The survey is being sent to approximately 80,000 Australians in randomly selected geographical areas. We are asking people in your area to complete the survey in the next week and return it in the reply paid envelope. We would like the survey to be completed by the person in your household, aged 18 years or over, who will have the next birthday.

We don't know who you are and we don't want you to tell us your name. All we ask of you is to complete the survey as honestly as you can and as soon as you can so that we can present an accurate picture of what is happening to Australians now and how they see their future.

This survey is being managed for us by Datacol Research Pty Ltd in Canberra. All enquiries and comments about this research can be made through a toll free number 1800 800 635.

Thanks so much for helping us with this survey.

Yours faithfully,

Val Braithwaite PhD

Part of the International Hope Initiative

How to Answer the Questions

- Please remember that for the purposes of this survey, questions about opinions and feelings have no right or wrong answers – we are interested in your personal opinion.
- Most questions have answer categories. Please circle the number below the category which comes closest to your opinion.

Example

How does your situation now compare with this time last year? Are you better off now, the same, or worse off?

	Much worse off now	A little worse off now	About the same now	A little better off now	Much better off now
a) amount of money you are making	1	2	3	4	5

If the amount of money you are making is about the same now compared with last year you would circle "3" as shown above.

- For some questions the answer should be written in rather than circled. Please be as specific as possible when answering these questions.

We would like the survey to be completed by the person in your household, aged 18 years or over, who will have the next birthday.

**How Are You Going -
Finding Enough Money**

In the last section we asked you about your hopes and aspirations. In this next set of questions we ask you about your options for achieving them. People can have very different opportunities depending on their situation. We have tried to represent as many different options as people have told us about. If your experience is not represented, please tell us about it in the comment section at the end of the questionnaire.
